

iQOO Reskill Hackathon

Grand Finale · Problem Statements

Pick the challenge your team will build against. You can change it until idea submission is locked by the organisers.

01

MOBILITY

Mobility

Build solutions for navigation, EVs, public transport, parking, or travel experiences.

02

COMMUNITY APP

Community App

Build a community app, not specific to iQOO, that connects developers, professionals, or interest groups, with AI (preferred to be on device) at the core.

03

SMART LIVING

Smart Living

Design AI-powered solutions for smart homes, IoT, connected devices, or everyday convenience.

04

PRODUCTIVITY

Productivity

Build AI-powered solutions that help people work smarter, automate repetitive tasks, manage time and information, improve workflows, and get more done.

05

DEVELOPER TOOLS

Developer Tools

Build tools that help developers create, test, deploy, or collaborate faster using AI.

06

OPEN INNOVATION

Open Innovation

Anything outside the tracks, any domain, with a local or open source model at the core.

SUBMIT YOUR IDEA

Pitch your Phase 1 solution. Only the team leader can submit.
