

Tricity AI Hackathon 2026

Problem Statements · by Centle India

01

SAASUM AI

IT & Enterprise AI

Intelligent ERPs, healthcare automation, logistics dispatch. Build AI into the software that runs real businesses.

02

MACECO ANALYTICS

Predictive Intelligence

Footfall prediction, sentiment dashboards, market shift detection. Turn messy data into decisions someone would pay for.

03

TOBOFU

MarTech & Growth

Vernacular content engines, WhatsApp automation, campaign intelligence. Marketing tools built for Bharat, not Silicon Valley.

04

PROMTAL

HR Tech & Hiring

AI resume screeners, blue-collar talent discovery, interview scoring. Fix how India actually hires.

05

SKILL TANK

EdTech & Careers

AI mock interview coaches, placement readiness trackers, skill-gap mapping. Solve the problem you are living through.

06

VRIDDHI CAPITAL

FinTech for SMBs

AI financial co-pilots, GST and compliance automation, cash flow forecasting for small businesses that cannot afford a CFO.

07

OPEN INNOVATION

Centle's Next Venture

No brief. No boundaries. Pitch what you think Centle should build next — or a problem in Warangal nobody has bothered to solve. The most convincing idea here has a real shot at becoming a funded venture.
